Cultilene 8x8 Block (Case of 18)

Model: PC8x8

Cultilene 8x8 Block (Case of 18)

Manufacturer: C.A.P. Custom Automated Products

Cultilene 8x8 Rockwool Blocks

The Cultilene 8x8 is the largest block ever produced by Plant Comfort. It is 8" square and contains over twice the amount of wool as the competitors. This block is big enough to grow a large plant for its entire life! When your plant outgrows its current block, just place it on top of the 8x8 block. Cultilene is made from solid wool and does not have a pre-cut hole thus making it suitable to hold any size smaller block on top. Blocks come 18 to a case.
