Dark Energy. 32 fl oz

Model: SA343

Dark Energy. 32 fl oz

Manufacturer: American Hydroponics

Dark Energy Nutrient Additive 32oz It Stinx - But It Rocks! Dark Energy is an exciting new nutrient additive that will significantly reduce the time to harvest, especially for flowering plants. Made from an exclusive blend of vital L-amino acids, vitamins and bionutrients, Dark Energy allows faster and greater ion penetration of the cell walls, visibly enhancing the rate of growth. Highly concentrated. Mix 1/2 - 1 tsp. / gallon of water. Unique benefits:

- Accelerated chelation of essential macro and micro nutrients improving overall nutrient uptake
- Improved vegetative growth and chlorophyll content
- Stimulates natural production of plant hormones such as auxin and ethylene, responsible for growth and fast ripening
- Improved yield and quality of harvest
- Increased tolerance to stress
- Can be used from seed to harvest
- Highly concentrated so little is needed
- Compatible with all fertilizer programs, even other nutrient additives!

Price: \$42.95
