Desktop CO2 Monitor

Model: hf-APCEM

Desktop CO2 Monitor

Manufacturer: HydroFarm

Autopilot Desktop CO2 Monitor (APCEM) Developed to detect the presence of CO2 in ambient air, the Autopilot desktop CO2 monitor is smart, compact and easy to use. In addition to measuring the CO2 concentration, APCEM also measures the ambient temperature and the relative humidity. High quality LCD display. Independent CO2, RH and temperature readings. Calculates and displays ventilation rates.

- Built in data logger can store 48 sets of CO2, temperature and humidity over 24 hours; one log every 30 minutes
- Min/max mode records the maximum and minimum concentration of CO2 since the device was last turned on
- High altitude setting allows you to compensate for specific location with adjustable altitude set points

Power adapter (included) accepts 110-240V, 50-60Hz
