Digital Cooling Thermostat

Model: hf-CATMP-DNE

Digital Cooling Thermostat

Manufacturer: HydroFarm

C.A.P. (Custom Automated Products) Digital Cooling Thermostat (CATMP-DNE)The TMP-DNe allows you to control the temperature within your growing environment.

The TMP-DNe is a day/night electronic cooling or heating thermostat with a differential of 3, 5 or 7 degree settings. Digital Cooling Thermostat, 50-115'f, rated for 15-Amp @120vac

C.A.P. strongly believes that the only way to design and manufacture controllers is the right way. That means understanding what expectations customers have, and manufacturing controllers that meet or exceed their expectations. It means paying attention to details and not cutting corners; constantly striving to produce the most innovative products in the industry, using only the finest quality components to ensure many years of trouble-free operation.
