

DiST 5 EC/TDS Meter

Model: hf-HI98311

DiST 5 EC/TDS Meter

Manufacturer: Hanna Instruments

Hanna Instruments DiST 5 EC/TDS Meter (HI98311) When the original DiST (Dissolved Solids Tester) was first introduced, conductivity and total dissolved solids measurements became easy and affordable. The DiST's ease of use, in combination with its affordability, made it the standard in EC and TDS measurement. HANNA continues the standard in EC and TDS testing with the DiST 5.

This tester includes features such as a replaceable graphite electrode, adjustable TDS ratio, °C or °F measurement, automatic temperature compensation (ATC) with adjustable β , battery level indicator, stability indicator, automatic shut-off, and automatic calibration.

The graphite conductivity electrode provides greater accuracy because it resists contamination by salt deposits in the sample.

All of these features are packed in a floating, waterproof casing. This 3-in-1 tester is unmatched in EC/TDS/temperature measurements.

Features

Dual-level LCD

Replaceable graphite electrode cartridge

Automatic calibration

Waterproof -- it floats

High accuracy

Automatic calibration and temperature compensation

HOLD function

BEPS (Battery Error Prevention System)

Includes probe, probe removal tool, batteries, and instructions

Manufacturer's Product Information

MSRP each \$130.95

Dimensions 5.7 x 2.3 x 8.2

Case Quantity 1

Price: \$90.51
