## DUCT FAN, 10" IN-LINE, 650 CFM, W / POWER CORD

Model: DFN-10

DUCT FAN, 10" IN-LINE, 650 CFM, W / POWER CORD

Manufacturer: C.A.P. Custom Automated Products

10" Inline Duct Fan, 650 C.F.M. (DFN-10) INLINE DUCT FANS An Inline Duct Fan is a reliable and cost effective way to keep temperatures in the indoor garden under control. Available in five models. All work with standard sheet metal or flexible duct work. Use one fan per light for air cooling or to increase the efficiency of an existing exhaust system. These fans have a low static pressure which means that the longer the ducting, the less effective they will be. For longer runs, a blower is much more effective. Grounded power cord attached.
