Dyna-Gro K-L-N Concentrate Rooting Solution
K-L-N CONCENTRATE 8 OZ (12/CASE)

K-L-N Concentrate is a rooting solution containing both IBA and NAA hormones to promote vigorous root growth in trees, foliage and flowering plants. Use it for propagating cuttings, air layering and as a transplanting drench for newly potted plants. Drench, dip or mist your plants to simulate new root growth. Growers highly recommend K-L-N to increase production of cuttings.
