This construction of the tubing is made from a rubber polymer and utilizes tiny pores that create extremely small bubble diameters. The smaller the bubbles are the more efficiently it transfers oxygen into the water which makes this unit highly effective for water aeration. These EcoPlus® Water Wind™ Mico Bubble Air Diffuser Rings require minimal maintenance and will last for years. 12 and 8 inch rings come with 3/8 inch inlet fitting and the 6 inch comes with a 1/4 inch inlet fitting.
