EZ Clone Manifold, 128 Cutting System

Model: hf-EZCL128M1

EZ Clone Manifold, 128 Cutting System

Manufacturer: EZ-Clone

The new and improved EZ-CLONE Classic Manifold is better than ever. With individually sized manifolds for each system size of the EZ-CLONE Classic Line. Optimal spray coverage is achieved with precise mister placement. Made from highly durable PVC plastic, these manifolds are ultrasonically welded during the manufacturing process to create the strongest bond possible which protects against splitting. Pair these with our EZ-CLONE 360-degree misters for an unrivaled combination. Proprietary design.

- Molded, durable ABS plastic
- Creates a thorough and even aeroponic mist
- Specially designed for each size system

(spray nozzles/ez clone sprayers shown in photo are not included)

Price: \$28.11
