Flora Nectar Grape Expectations, 2.5 gal

Model: hf-GH1794

Flora Nectar Grape Expectations, 2.5 gal

Manufacturer: General Hydroponics

General Hydroponics Flora Nectar Grape Expectations, 2.5 gal (GH1794) The scientists at General Hydroponics have formulated FloraNectar to optimize the greatest transference of sweetness and aroma into your fruits and flowers. FloraNectar contains all-natural raw cane sugar, molasses, malt syrup, select plant based esters, L-amino acids, organic acids, vitamins and essential minerals.

This unique blend of ingredients helps your plants regulate enzymes that trigger specific reactions involved in maintaining optimal metabolism. This allows your plants to achieve a balance between respiration and photosynthesis in high intensity growing environments where the rate of respiration can sometimes exceed the rate of photosynthesis.

As a result, FloraNectar ensures optimal metabolic rates during the flowering and fruiting phase when nitrogen levels have been reduced. FloraNectar also promotes a sturdier plant structure during the vegetative phase when high levels of nitrogen are present.

FloraNectar fulfills the additional energy requirements of your plants throughout all phases of growth and during stressful times of transition.
