Floralicious Grow qt

Model: hf-GH1372

Floralicious Grow qt

Manufacturer: General Hydroponics

General Hydroponics Floralicious Grow qt (GH1372)FLORALICIOUS GROW: Enhances metabolic activities and nutrient assimilation that results in more vigorous growth. Builds the foundation of root and leaf mass needed for superior harvests.

Made from a highly concentrated blend of bioactive microbial, plant, marine plants, and mineral extracts. Guided by the latest scientific findings, our unique fermentation process creates a potent blend of phytochemicals and biometabolic precursors that enables Floralicious to bring out your plants' full genetic potential. Floralicious augments metabolic activity in the root zone, stimulates Krebs cycle metabolism, and facilitates mineral transport and bioconversion. In addition, Floralicious enhances polyamine synthesis and encourages the biosynthesis of complex secondary aromatic compounds. Floralicious contains a perfect balance of vitamins, phytohormones, humic acids, polysaccharides, fructans, beta-glucans, L-amino acids, and polyflavonoids. Floralicious leads to hydroponics with flavor and incredible yields!
