

FloraNova Bloom. 1 Quart

Model: HY205

FloraNova Bloom. 1 Quart

Manufacturer: General Hydroponics

FloraNova is the breakthrough gardeners have been waiting for: an exceptionally potent, complete one-part fertilizer plus organic additives. Extremely concentrated, FloraNova is an excellent bargain, one to two teaspoons in a gallon of water. One bottle is all you need, making FloraNova the easiest nutrient you'll ever use. FloraNova Bloom works as a specialized nutrient for rapidly growing plants during the flowering and fruiting stage. FloraNova's unique combination of primary and secondary nutrients and pH buffers keeps nutrients fully water-soluble. FloraNova provides all the micronutrients your plants need for healthy growth. FloraNova assures proper nutrition for your plants from seedling through harvest. FloraNova is ideal for all hydroponic applications as well as potted plants in soil. . FloraNova is extremely easy to use, outstanding for all kinds of plants, superb for both hydroponic and soil cultivation, and is super concentrated and pH stabilized.
