FON Miticide

FORCE OF NATURE Miticide controls various mites and insects on many types of crops such as melons, squash, tomatoes, tree crops, grapes, cucumbers and all sorts of flowers. Force of Nature™ Miticide has shown the ability in independent, replicated field and greenhouse trials to control mite populations for 3–4 weeks with a 1% spray solution.

Force of Nature Miticide is applied as a foliar spray and should be a great addition to a well-managed IPM program. Force of Nature™ Miticide is non-toxic to humans and animals.

Refer to label for caution statement and complete instructions.
