G-Rex 1 qt

Manufacturer: Cutting Edge Solutions

Cutting Edge Solutions G-Rex 1 qt (CES3309)G-Rex - custom blended in Northern California, never dried or dehydrated!

G-Rex is formulated to be used throughout the entire growth cycle. It will continue to work from the rooted cutting stage all the way until harvest. When making cuttings, add G-Rex as soon as callus forms at the base of the cutting. For example, when you set up a tray of rockwool or oasis cubes water with Hum-tea, wait seven days and then water in G-Rex. After transplant continue to use G-Rex in your system at the recommended rate through harvest.

G-Rex is compatible with any fertilizer product, however G-Rex is developed for use with Cutting Edge Solutions Fertilizers.

G-Rex Application and Usage

• Recirculating hydroponic systems: Mix 3-5 ml per gallon of water• Drain to waste hydroponic systems: Mix 5-8 ml per gallon water• Organic soil systems: Mix 5-8 ml per gallon water• Clone Machines: Mix 2 ml per gallon water• Hand watering mother plants: Mix 5-15 ml per gallon water• Soak for rockwool and oasis cubes: Mix 10 ml per gallon water• Foliar spray: Mix 5 ml per gallon
