Model: 714064

GH® COCOTEK® NATURAL COCONUT COIR 5K BALE (1/CASE)

Manufacturer: General Hydroponics

GH® COCOTEK® NATURAL COCONUT COIR 5K BALE (1/CASE) (714064) General Hydroponics® CocoTek® Organic Growing Medium

CocoTek® Grow mats are made from a strong weave containing 100% organic coconut fiber and natural rubber. Roots will thrive in this natural media. These mats can be easily cut to fit any size application and are designed to lay underneath baskets, slabs and cubes. Roots will grow under mats where moisture remains in a hydroponic tray between flood cycles protecting them from drying out.

CocoTek® is pH balanced and contains low sodium content for coir fiber. It increases water holding capacity and nutrient retention, expanding to 5 times it's condensed brick size. CocoTek® can be mixed with any other growing media. The "mixed" brick contains coconut chips, fiber and fine coir to increase the structure of the media.
