

GroChek pH Tester

Model: hf-HI981408

GroChek pH Tester

Manufacturer: Hanna Instruments

Hanna Instruments GroChek pH Tester (HI981408) This tester has been specifically designed to address the needs of growers in hydroponics, greenhouses, and nurseries.

The meter has all the features necessary to check the pH of the fertilizer solution during preparation. With a sturdy body, it also floats so that it can be quickly retrieved if accidentally dropped in the tank.

Frequent battery replacement is no longer an issue -- the HI 981408 will run for 2,000 hours continuously on common AA-type batteries. This translates into more than 2 years of continuous use up to 2 hours a day, seven days a week! Calibration has been simplified to one point through a dial on the front of the meter. The outer casing also incorporates a molded eye so you can hang the meter when not in use.

Features

Shock resistant casing

Water resistant housing

Replaceable electrode

Shock-resistant casing

Long probe is ideal for fertilizer solution in tanks and vats

2,000 hours of operation on 2 AA batteries

Floating

Replaceable probe

Includes pH electrode, pH 7 buffer solution, batteries, and instructions

Manufacturer's Product Information

MSRP each \$113.95

Dimensions 2.7 x 1.2 x 8.2

Case Quantity 1

Price: \$76.30
