Grotek Kick Start, 1L

Model: hf-GTKSQT

Grotek Kick Start, 1L

Manufacturer: Grotek

Grotek Kick Start jump starts very young plants, new cuttings or recent transplants. Kick Start is great for cloning as it promotes root development.

This low ratio liquid rooting and feeding solution helps your plants efficiently absorb nutrition while promoting root development and healthy green growth.

Kick Start is also time released for immediate uptake so plants get more of what they need fast! Use on new cuttings and recent transplants or before plants are mature enough to handle stronger nutrients. Can also be used effectively with Coco or peat pellets.

Kick Start application rate:

Soil: use 40 ml per gallon Hydroponics and Soilless: use 30 ml per gallon Foliar feeding: use 5 ml per liter

Price: \$20.56
