GX200HF RO

Model: 741705

GX200HF RO

Manufacturer: GrowoniX

GrowoniX GX200 HF RO

The GrowoniX® GX200 HF is engineered to provide a 50% increase in water production over traditional ROs, and provides a lowered waste ratio to 2:1. Features a manual flush valve that allows you to clean the membrane. Includes a 2" stainless steel liquid-filled pressure gauge and integrated it into our patented GX Series bracketing system.

The GX200HF comes equipped with a high flow pleated sediment filter and an Eco Green coconut carbon filter offering superb filtration. We also offer a KDF/CAT for water supplies containing chlorine, lead, mercury, iron, and hydrogen sulfide.

Price: \$217.95
