

Hanna Checker Phosphorous ULR Reagents (25/CS)

Model: 716945

Hanna Checker Phosphorous ULR Reagents (25/CS)

Manufacturer: Hanna Instruments

FOR Hanna Checker - Phosphorus ULR

Easier to use and more accurate than chemical test kits

Ascorbic acid method
±0.04 ppm ±4% of reading accuracy
Large, easy to read digits
Auto shut off

Dedicated to a single parameter
Designed to work with HANNA's reagents
Uses 10 mL glass cuvettes

Small size, big convenience
Weighing a mere 64 g (2.25 oz.), the Checker@HC easily fits into the palm of your hand or pocket
Use for quick and accurate on the spot analysis
Single button operation: zero and measure
Operated by a single AAA battery

Ideal for: Aquaculture (marine applications)

Phosphorus concentration in water is monitored because it causes corrosion when present in levels too high.

The HANNA HI 736 Checker@HC bridges the gap between simple chemical test kits and professional instrumentation. The HANNA HI 736 is both accurate and affordable.

The HI 736 Checker@HC portable handheld colorimeter features a resolution of 1 ppb and ±5 ppb ±5% of reading accuracy and uses an adaptation of Standard Method Ascorbic Acid.

The HI 736 Checker@HC is extremely simple to use. First, zero the instrument with your water sample. Next, add the reagents. Last, place the vial into the Checker@HC, press the button and read the results. It's that easy.
