HD IONIC™ BOOST 0-5-6 - 2.5 GALLON (2/CASE)

Model: 732265

HD IONIC™ BOOST 0-5-6 - 2.5 GALLON (2/CASE)

Manufacturer: HydroDynamics International

HD IONIC™ BOOST 0-5-6 - 2.5 GALLON (2/CASE) (732265) Hydrodynamics Ionic® Boost 0-5-6 Ionic® Boost is formulated to be applied during the final few weeks before harvest of most fruiting and/or flowering crops. Ionic® Boost allows the grower easy control of the extra phosphorus and potassium that can lead to bumper yields. It is designed to work with Ionic® Bloom products, but is also compatible with most liquid nutrients of the bloom variety.

Ionic® Boost delivers the key mineral elements phosphorus (P) and potassium (K) in a pure form that is instantly accessible to the plant. These crucial ingredients are used in abundance by plants in their fruiting or flowering cycle and the extra levels provided by Ionic® Boost can lead to larger flowers and greatly increased fruit and vegetable yields.
