Heavy Duty Pot 20 gal

Model: eco-6019

Heavy Duty Pot 20 gal

Manufacturer: HydroFarm

These injection-molded nursery containers have heavy-duty wrap-around rims that are easy to handle and strong enough to pick up heavy plant material. Superior drainage is engineered into both side and bottom drain designs.

Squat Containers offer a wide base, which is ideal for shallow rooted plants and produces a better root ball. They also help to conserve water by capturing more during watering. Great for stacking and even greater for windy conditions.

NOTE: 20 gallons of loose soil will fit in this pot when compacted. Actual liquid volume is 19.7 gallons.

Price: \$8.53
