Humboldt Roots 1 gal.

Model: hf-HNHR425

Humboldt Roots 1 gal.

Manufacturer: Humboldt Nutrients

Humboldt Nutrients Humboldt Roots 1 gal. (HNHR425) Humboldt Roots is a highly concentrated organic root stimulant that expands the root zone during the critical growth stage.

The soul of every plant resides in the roots. Many gardeners neglect this fact and concentrate on the visual aspects of their plants.

A large yield is directly related to a plant's metabolism rates, and plant metabolism rates are directly related to their root zones' uptake of nutrients and fertilizers.

Humboldt Roots was specifically designed to expand the root zone, resulting in larger yields.

DIRECTIONS: Always mix in non-chlorinated water.

Soil: Mix 2 mL per gallon in non-chlorinated water. Use in conjunction with regular nutrient program throughout the vegetative stage and first three weeks of the bloom stage.

Hydroponics: Mix 2 mL per gallon in non-chlorinated water. Use in conjunction with regular nutrient program throughout the vegetative stage and first three weeks of the bloom stage.

Propagation: Mix 2 mL per gallon in non-chlorinated water. Soak rooting media with mixture prior to placing cuttings. Use throughout rearing stage. Suitable for aeroponic propagation.

CONTAINS NON-PLANT FOOD

INGREDIENTS: Ascophyllum Nodosum, Humic Acids derived from leonardite, Potassium Humate, Quillaja Saponaria Extract, and Amino Acids.
