Humidity Dome 2" (50/case)

Model: eco-5622A

Humidity Dome 2" (50/case)

Manufacturer: HydroFarm

Humidity Dome 2" (50/case) (eco-5622A)Humidity Dome 2"

A heavy duty plastic dome that is 2 in. and fits on 10x20" tray. It will help retain moisture and heat to improve germination of seedlings.

Humidity Dome/Cover

Humidity Dome/Cover - Ready to fit any standard 10" x 20" propagation tray. If you are germinating seeds then use the 2" Humidity Dome to help retain heat and moisture to improve your success rates. The Altitude 7" Dome fits any standard 10" x 20" propagation tray and has the space to grow bigger and taller starts. The Hydrofarm 7" Humidity Dome regulates air flow with two adjustable vents. Made of thick heavy-duty, high grade plastic that maximizes light penetration and fits tightly to reduce moisture loss.

SKU: CK64001

Weight: 1.0 lbs.

Package Dimensions: 21.3L x 11.5W x 2.7H

Suggested Retail: \$2.50
