Hydro Fusion Fill & Drain Kit

Model: hf-HF101

Hydro Fusion Fill & Drain Kit

Manufacturer: HydroFarm

Hydro Fusion Hydro Fusion Fill & Drain Kit (HF101) This Hydro Fusion fill and drain kit really sucks! Suction isn't just for vacuum cleaners any more. This non-electric, siphoning pump works quickly to empty your reservoir. It'll even get that last stubborn bit of water out of your reservoir without drying out your pump. It fits right onto an ordinary house faucet and includes a micro screen to avoid any messy clog ups. This all in one also has an automatic shut off for filling.

Features

Faucet adapter changes ordinary faucets into hose threads

Super pump can create over 20 lbs of vacuum and is non-electric

Hose shut-off valve allows you to shut off at the filling point

Hose guard's micro screen and grill protect debris from getting into the pump
