## HYDRO-LOGIC™ PRESSURE BOOSTER PUMP FOR STEALTH 100 & 200 (SPECIAL ORDER ONLY)

Model: 728897

HYDRO-LOGIC™ PRESSURE BOOSTER PUMP FOR STEALTH 100 & 200 (SPECIAL ORDER ONLY)

Manufacturer: Hydro-Logic

Hydro-logic#8482; Pressure Booster Pump for Stealth  
STEALTH BOOSTER PUMP

This pump is designed to be installed before the Stealth-RO to boost the inlet pressure. There needs to be at least 40 psi and up to 80 psi of inlet pressure for the Stealth-RO to function properly. People on wells and other situations of low pressure can benefit greatly from this pump. It boosts the pressure significantly, allowing the Stealth-RO to run with higher flow and efficiency while having better TDS removal. The pump is designed for long service life and runs very quietly.

### Manufacturer's Product Information
