Model: hf-CR41000

Hydroponic Finger Micro Snips 1 3/4 (12/cs)

Manufacturer: -

The Hydroponic Micro Finger Snip is a perfect tool for fine, precision cutting a variety of plants. The compact, stainless steel blades stay razor-sharp, while resisting rust and corrosion. The durable ABS plastic handle is lightweight and comfortable, with a large finger loop that adds control when cutting. The push button thumb lock is conveniently located on the side of the handle and easy to use.

- Sharp, stainless steel micro blades
- Handle finger loop for added control
- Lightweight, strong ABS handle
- Spring is located in the handle and out of the way
- Push button thumb lock
