FOR Hydrotek 70 Gallon Reservoir (HRES70)FOR HYDROTEK RESERVOIRS

Hydrotek spares no expense when producing our high quality virgin ABS plastic reservoirs; unlike the competition's styrene plastics. The reservoirs come ready with level markers on the internal side, making the measuring of your nutrients much easier to do. These reservoirs are extremely thick and hold up well to cold and shipping. The black plastic helps prevent the growth and spread of algae. As always, Hydrotek offers these to you in a variety of sizes and at a great price.
