Ice Box Thermostat

Model: hf-HSICESTAT

Ice Box Thermostat

Manufacturer: Hydro Innovations

Hydro Innovations Ice Box Thermostat (HSICESTAT) Designed to regulate the air conditioning through the Ice Box, this thermostat controls power to the fans with separate settings for lights on and lights off temperatures. During the on light cycle, fans are sped up to full power when cooling is needed and are slowed to an idle when the cooling needs are met. During the off light cycle the fans will again speed up when cooling is needed, but they will completely turn off when the cooling needs are met. With 7.5 amps available several fans can be run by one controller.
