## InterLux™ 1000W HPS Double Ended High Performance Grow Lamp

Model: dl-791000-D

InterLux™ 1000W HPS Double Ended High Performance Grow Lamp

Manufacturer: -

The only thing better than a double ended bulb...is an InterLux™ double ended bulb. Beats the competition in every way, InterLux™ double ended bulbs are true champions. These bulbs perform at the highest possible level and save you money! Compared to single ended lamps, InterLux™ double ended bulbs are more efficient by using the same wattage to produce higher par and lumen ratings. They have a higher red spectral ratio enhancing flowering and growth. InterLux™ double ended bulbs also provide minimal light deterioration for maximum intensity and lifespan.

5 reasons why InterLux™ double ended lamps are superior to traditional HPS bulbs:

1. They are more efficient, using the same 1000 watts to produce higher par and lumen ratings
2. Longer life-spans,
3. Less light deterioration
4. Higher red spectral ratio enhancing flowering & growth
5. Minimal light deterioration for maximum lifespan & intensity

Compatible with high frequency electronic ballasts. One Year Warranty.
