KORILLA EVOLUTION 550 GPH (12/CS)

Manufacturer: -

Koralia Aquarium Circulation Pumps

The KORALIA NANO has added 2 new models that reach 240gph and 425gph but remain super compact and efficient. The magnet suction cup support and the sphere joint have been modified allowing better flow direction. Choose which model better suits your needs and watch your aquarium benefit from the flow of these super efficient little pumps.

The KORALIA EVOLUITON are based off the success of the Koralia, has defined a new concept of circulation pump. Finally a compact, energy saving controllable pump with amazing, never seen before performance! Even the exclusive magnet suction-cup support has been improved becoming a vibration-absorbing device as well. New impellor technology that is shaftless for easier and quicker maintenance. Find the model that better suits your needs, position it, plug it into a timer or directly into your electricity supply and watch your aquarium benefit from the powerful yet gentle flow.
