## LIFE™ 32oz Cloning Solution

Model: dl-RXLFE32

LIFE™ 32oz Cloning Solution

Manufacturer: -

LIFE provides the nutrient inputs required in early root development. Our unique blend of ingredients combines nitrogen, phosphorus and potassium into a true solution. Life is formulated for the early stages of the plant's development. After extensive research and development, Life has shown to reduce the number of days to root from cuttings and increase cuttings overall survival rates.

- Works with ALL growing media
- Provides essential nutrients for early root development
- Energy metabolism to promote new vegetative growth
- Amino acids to facilitate protein synthesis as the early building blocks for plant development

**Price: \$12.09**
