LTL Digital Temperature Controller- Cooling

Model: dl-206001

LTL Digital Temperature Controller- Cooling

Manufacturer: -

LTL Temp Controllers can be used to control the temperature of many appliances. They work great for controlling heat mat temperature, and can regulate temperature between 40 to 108°F.

Specifics:

Max Load: 1000 Watts

Max Amps: 8.3

120V input & output voltage

Temperature control range: 40 to 108°F (5 to 24°C)

Temperature display range: 32 to 140°F (0 to 60°C)

Price: \$21.98
