Mag Amped 20 gal

Model: hf-CES2805

Mag Amped 20 gal

Manufacturer: Cutting Edge Solutions

Cutting Edge Solutions Mag Amped 20 gal (CES2805)MAG-AMPED is a pure Magnesium product, combined with an organic surfactant that helps with uptake and overall solubility. Magnesium is essential for chlorophyll production in plants, in turn chlorophyll is the component in photosynthesis, essentially starting the process through collection of light energy. MAG-AMPED is a low molecular weight chelate of Magnesium and as such is very easily absorbed by plants. MAG-AMPED is fantastic as a foliar spray, having the same low molecular weight and "clean" properties as CES's other additives. MAG-AMPED can also be used in conjunction with CES's 2 other additives for custom foliar applications.
