## Master Light Controller, 30 Amp @ 120/240vac w/4-120vac plugs

Model: hf-CAMLC4X

Master Light Controller, 30 Amp @ 120/240vac w/4-120vac plugs

Manufacturer: HydroFarm

C.A.P. (Custom Automated Products) Master Light Controller, 30 Amp @ 120/240vac w/4-120vac plugs (CAMLC4X) The MLC-4X and MLC-4XT Master Lighting Controllers are the best devices for controlling up to four HID lights from one time-clock or controller. You run 30 amp, 120/240 volt power into the MLC-4, and all of the outlets are controlled by one 120 volt trigger cable. You can plug the trigger cable into a standard 24 hour timer, environmental controller or one of the C.A.P. HLC series of garden and lighting protection devices. The MLC-4X and MLC-4XT has four 120/240 volt style outlets which allows for running your ballasts at 120/240 volts without having to change out your ballast power cords. The MLC-4XT has an integrated timer that allows you to control your MLC with the built-in time clock. The MLC-4X's are rated for 30 amps @ 120/240 volts.
