Microbe Life Photosynthesis Plus Quart (12/Cs)

Model: 717505

Microbe Life Photosynthesis Plus Quart (12/Cs)

Manufacturer: MICROBE Life Hydroponics

Microbe Life Photosynthesis Plus

Enhances plant functions at the foliar level and the root zone in both soil and soilless substrates. Enhances photosynthesis and biological function by allowing plants to capture and utilize radiant energy more efficiently. Speeds uptake and distribution of essential macro- and micro- nutrients required for all plant metabolic functions and growth. Promotes plant health and reduces input costs while increasing yields.

Not for sale in CA, Canada, HI, NM, OK, OR, PR, SD at this time.
