Oregonism XL 1.8oz Endo/Ecto-Mycorrhizae

Model: hf-ROIXP

Oregonism XL 1.8oz Endo/Ecto-Mycorrhizae

Manufacturer: Aurora Innovations

Roots Organics Oregonism XL 1.8oz Endo/Ecto-Mycorrhizae (ROIXP) Roots Organics Oregonism XL is a distinctive super-soluble formulation of endo/ecto-mycorrhizae, beneficial bacteria, and Trichoderma. The species of microorganisms in this product are specifically selected for fruiting and flowering plants with a tolerance to heavy fertilizing. Mycorrhizae colonize the root zone, forming a symbiosis with the plant's roots, massively increasing the size and effective surface area, facilitating greater nutrient uptake, resistance to disease, and increased tolerance to drought. The beneficial bacteria and Trichoderma in this unique product also produce plant and root growth promoting compounds and protect against pathogens. Oregonism XL is incredibly versatile and effective in potting soil and hydroponics.
