

ORGANICARE PURE 5LB TUB (6/CS) Special Order

Model: 739051

ORGANICARE PURE 5LB TUB (6/CS) Special Order

Manufacturer: Organicare

Organicare Pure™ 6-6-5+8%Ca

Pure natural and organic plant food is the base for the Organicare Plant Nutrient System. Pure contains only natural, organic-based ingredients. It is ideal for container gardens, raised bed gardens, potted plants and hydroponics. Beneficial for fruits, vegetables, trees, shrubs and turf. Pure’s carbon based, biologically enhanced granules feed beneficial soil microorganisms, which in turn, feed your plants. The end result is Naturally Superior™, rapid, and vigorous growth. Pure contains a combination of highly active organic acids including humic acid. We combine major growth promoters like fish meal and seaweed with composted poultry litter, alfalfa meal, sulfate potash, macro and micro minerals, amino acids, proteins, and natural plant extracts to create a highly effective fertilizer and growth stimulator.
