oxyCLONE oxyCERTS - 1 7/8", Blue, pack of 20

Model: hf-OX50020

oxyCLONE oxyCERTS - 1 7/8", Blue, pack of 20

Manufacturer: -

oxyCERTS are soft, non-toxic EVA foam plant inserts that are perfectly shaped and fitted for your oxyCLONE system. With their "no-pinch" design, they hold delicate clones firmly yet gently throughout the entire propagation process. They are fungus- and bacteria-resistant, non-toxic, chemical and heat resistant, and writable. They will not absorb water, so there is absolutely no degradation or waterlogging. Cleaning is simple—just use warm, soapy water.

Price: \$12.71
