PANDA FILM 10' x 25' ROLL

Manufacturer: Sun System

Panda Film Black & White Poly Film

Used in growing areas - this is waterproof poly film that is black on one side and white on the other. Panda film works well as a reflective film (reflects 90% of the light striking it back to the growing area) or as a room partition. This is a very heavy duty film at a thickness of 5.5 - 6 mil.
