Phantom 750W Digital E-Ballast w/BUSD750GE 750W HPS Bulb

Model: hf-PHE750DSKIT

Phantom 750W Digital E-Ballast w/BUSD750GE 750W HPS Bulb

Manufacturer: HydroFarm

This kit contains a Phantom 750W Digital E-Ballast with a Free 750W HPS Bulb

Hydrofarm's Phantom Digital Electronic Ballast is the most rigorously tested ballast on the market. The Phantom features silent operation, lightweight design, multiple placement options and the maximum lumen output around. We listened to your needs and learned. Now you can reap the benefit with this durable, premium digital ballast.

Tri-mode, push-button dimmable feature gives you the light you need in your specific growing situation.

Hot re-strike programming protects the lamp in the event of a power outage

Tested for compatibility with most brands of high intensity grow lamps

Dual resettable breakers - protects lamp and household circuits

Only ballast on the market designed for vertical operation for coolest running and optimum grow space

Drives the highest light output for maximum plant growth

Universal reflector adaptor and 8 ft heavy duty cord included

Unlike magnetic ballast, Phantom runs completely silent

Patented lock & seal BAREF lamp cord installed

Internal RF protection

Triple surface aluminum fins - most efficient cooling in its class

Internal Resin coating protects components for long life

Price: \$144.45
