Phantom Commercial 1000W Double-Ended Digital Ballast - HPS, 347V

Model: hf-PHB3025

Phantom Commercial 1000W Double-Ended Digital Ballast - HPS, 347V

Manufacturer: HydroFarm

Phantom double-ended technology drives maximum PAR value! The engineering excellence of Phantom ballasts is now incorporated into our new Phantom Ballast Commercial DE ballasts. Their high-frequency design is optimized for double-ended 1000W lamps, and they feature a highly precise microprocessor and four-way output control. Totally silent, efficient and lightweight, they will power all doubled-ended reflectors that utilize double-ended lamps.

This model (PHB3025) is wired for 347 Volt operation, is generator ready, and comes with instructions and an 8-foot power cable

High-precision microprocessor control

Robust commercial design

Superior reliability

Internal RF shielding

Patented ignition control

Auto restrike feature protects valuable lamps from damaging power interruptions

Cooling fins for maximum heat dissipation

Suitable for use in damp locations

Price: \$238.49
