Phantom Digital 750W Electronic Ballast, 120/240V Dimmable

Model: hf-PHE750DS

Phantom Digital 750W Electronic Ballast, 120/240V Dimmable

Manufacturer: HydroFarm

Phantom Phantom Digital 750W Electronic Ballast, 120/240V Dimmable (PHE750DS) Our Phantom Digital 750W Electronic Dimmable Ballast is part of the most rigorously tested ballast line on the market. Phantoms feature silent operation, lightweight design, and the maximum lumen output on the market. The Phantom is also the only ballast on the market designed for vertical operation, for coolest running and optimum grow space. We listened and learned from your input - now you can reap the benefits with this durable, premium digital ballast.

Features

Dual resettable breakers - protects lamp and household circuits

Three operating configurations - vertical, horizontal, or hanging

Drives the highest light output for maximum plant growth

Includes universal reflector adaptor and 8' heavy duty cord

Silent operation

Patented Lock & Seal BAREF lamp cord installed

Internal RF shielding

Triple surface aluminum fins and elevated rubber feet provide the most efficient cooling in its class

Internal resin coating protects components for long life

CSA certified

FCC certified

Generator ready

The 750DS runs HPS bulbs only

Input voltage: 120V 208V or 240V

When using at 240V, do not use with timer TM01240, also known as the Intermatic HB112. You must use the TMHDT104, or a lighting controller, such as the APCL4240.

Manufacturer's Product Information

MSRP each \$294.95

UPC793573082985

Dimensions 9 x 4 x 9

Case Weight 55

Case Quantity 4
