Phantom II CMh 315W Ceramic Metal Halide Digital Ballast

Model: hf-PHBC3151

Phantom II CMh 315W Ceramic Metal Halide Digital Ballast

Manufacturer: HydroFarm

The Phantom CMh 315W ballast is a low frequency, square-wave digital ballast designed specifically for the 315W ceramic halide lamp. It features internal RF shielding, multi-aspect protection circuitry, versatile 120/208/240V input voltage, and patented lamp depreciation control. It can easily be wall-mounted near the reflector, and can be mounted up to fifty feet away from the reflector using our optional lamp cord extensions. Includes an 8' 120V power cord, operating instructions, and a three-year warranty.

Phantom 315W features:

Low frequency, multi-voltage (120V/208V/240V) square wave technology runs 315W ceramic metal halide lamp

Multi-aspect protection circuitry

Patented output control maintains maximum PAR value over lamp life

Price: \$153.97
