Phresh Filters are state-of-the-art carbon filters that scour the air to make it clean of dust, foreign particulates, organic compounds and odors. Competitively priced, Phresh Carbon Filters are half the weight, last twice as long and have the largest selection of sizes to choose from. Phresh Filters rely on the unique properties of RC-48 Australian activated carbon. They are used in research labs, plant breeding, tissue culture, indoor gardening, backyard & commercial greenhouses for their total airstream filtration characteristics. Phresh Carbon Filters are professional-grade systems designed to meet the demands of serious hobbyists and commercial applications.
