Model: hf-CES2507

Plant Amp 55 gal

Manufacturer: Cutting Edge Solutions

Cutting Edge Solutions Plant Amp 55 gal (CES2507) PLANT AMP is a chelated calcium product that also contains a proprietary organic plant stimulating ingredient. Calcium is the basis of cell wall development in a plant and the chelated calcium in PLANT AMP is extremely soluble, providing an easily utilized source of calcium. PLANT AMP is 100% organic and can be used throughout the entire growth cycle to optimize a plant's growth. PLANT AMP is also a fantastic foliar spray, due to its low molecular weight for uptake, but also because it is very "clean," leaving no heavy build-up or residue on the plant. PLANT AMP can also be used in conjunction with CES' 2 other additives to create custom foliar applications.
