Plug Adapter Brand S

Model: hf-BAASP

Plug Adapter Brand S

Manufacturer: HydroFarm

Hydrofarm Plug Adapter Brand S (BAASP) Enjoy the flexibility of using one of our Hydrofarm ballasts with any reflector on the market. Although Hydrofarm reflectors are built to be compatible with our line of ballasts, if you've already got a reflector you prefer or are shopping around, you can still make the connection and customize your grow area to your needs.

The BAASP plug adapts a Hydrofarm fixture/cord set to any ballast, thereby expanding your setup options. We offer a full range of power supply cords as well as adapters to switch from Hydrofarm ballasts to other brands of reflectors, or from Hydrofarm reflectors to other brands of ballasts. We also offer extension cords for your convenience, but keep in mind that some high intensity light systems may not work at long lamp cord lengths due to ignitor range restrictions. If you have any questions, please consult your sales representative.
