Model: eco-5721

Powerbloom Triple-Pak (12/case)

Manufacturer: HydroFarm

Powerbloom Triple-Pak (12/case) (eco-5721) Plantastic Products - PowerBloom
Plantastic Plant Products

Each packet contains 0.2 oz. of concentrated hormone powder and makes one pint of potent spray solution. Spray once a week for 3 weeks when plants are young (1 to 2 ft high). Inhibits the natural gibberellins which cause excess stem elongation and channels the extra energy into lateral branching and bud formation. Mature plants exhibit less legginess, less open spaces between the branches, and a sturdier main stalk. (Do not use on new cuttings).

Powerbloom - Inhibits the natural gibberellins which cause excess stem elongation and channels the extra energy into lateral branching and bud formation. Mature plants exhibit less legginess, less open spaces between the branches, and a sturdier main stalk. Increase vigor and blooms.
