Powerbox DPC-8000-240-4P

Manufacturer: PowerBox

Powerbox DPC-8000-240V-4P With a DPC-8000 240 Volt lighting controller from Powerbox™, you can control up to eight 1000 Watt lights from one timer. Designed with safety in mind, the DPC-8000 is an affordable lighting controller made in the USA from industrial-grade components. With this unit, running up to eight lights has never been quicker or easier - you can plug directly in to a 240 Volt range outlet to have your lights up-and-running in minutes. It's easy to mount to a wall (keyhole tabs), or set on a flat surface (non-skid rubber feet).

Programmable digital timer to control light cycles.

Eight NEMA type 6-15 240 Volt outlet receptacles.

4' main power cord - Plug & play NEMA 14-50P, 4-Prong Plug.

Hand-built at their California factory, 5 year warranty.

Price: \$268.14
