Seed / Clone to Harvest, Landscape,

Knives, Shears, Loppers, etc. > Horticultural Pruners

Precision Pruner

Model: hf-HGPP400

Precision Pruner

Manufacturer: HydroFarm

Hydrofarm Precision Pruner (HGPP400) You may see each and every plant of yours as your children and therefore it may be hard to change them even a little bit. With the Hydrofarm Precision Pruner, you can help your plants get into the best possible shape, without putting them at any kind of risk. When it comes time to prune back branches, leaves and other growth, the sharp blades and comfort grip of the pruner helps you cut quickly and precisely. You won't be blindly aiming a large, risky blade in the realm of sensitive root and stem areas. When it's not in use, the pruner slips into its holster to protect blades against your mists and foliar sprays.

Features

Right or left handed use

Surgical stainless steel holds a sharper edge longer

Ergonomic design and comfort lock reduce stress to the hand

High quality spring enhances speed and performance

Double density, anti-slip handle

Ultra light

Safety lock

Ideal for cutting flowers

Comes with holster - attach it to your belt and you'll never lose your pruners again!
