Premium RO Membrane 100 GPD

Model: 728815

Premium RO Membrane 100 GPD

Manufacturer: -

The RO Membrane is the workhorse of an RO System. These membranes are classified as TFC (Thin-Film Composite), which has the highest removal capacity of contaminants from your water supply. Replacing the sediment and carbon filters on a regular basis will help protect your RO membrane from premature fouling.

Price: \$53.90
